DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

3. Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Design Patent Number 70,800 (McDonald).

Regarding claims 1-7, Figures 1-2 of McDonald show a six-point game jack inherently capable of allowing tripodal support. Figure 2 best shows the jack as a horse figurine with two points being differently shaped.

Regarding claim 8, Figure 2 is considered to show two component parts, the head and the tail.

Art Unit: 3711

4. Claims 11 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over McDonald as applied above.

Regarding claims 11 and 12, game pieces are old and well-known in the art to be made from metal, plastic or rubber.

5. Claim 13 is rejected under 35 U.S.C. 103(a) as being unpatentable over McDonald in view of U.S. Patent Number 2,286,368 (May).

Although McDonald only shows one jack, May discloses, in Figures 1-13, that a jack set can be comprised of differently shaped jacks.

Allowable Subject Matter

6. Claims 9, 10 and 14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
